AUTHOR INDEX

ABBAR, F.M., antibiotic resistant *escherichia coli* 846.
ABEYTA, C., Jr., incidence of motile aeromonads, 849; (see Kaysner, 300).
ABGRALL, B., enumeration of aerobic flora of fish, 213.
ABOUZIED, M.M., (see Pestka, 577).
ADESIYN, A.A., *e. coli* from fermented milk in nigeria, 574; (see Odugbo, 1071).
AHAMAD, N., (see Marth, 26).
AKERS, K., (see Langlois, 119).
ALDENRATH, S.G., (see Tiwari, 382).
ALFORD, R.A., (see Ingham, 566).
ALLEN, G., (see Satchell, 558).
ALTUG, T., (see Marth, 581).
ALVAREZ, S., (see Perdigon, 404).
AMIN, M.K., (see Draughon, 826).
AMOR, K.B., (see Fields, 881).
ANDREWS, W.H., (see Satchell, 558).
ANOZIE, S.O., (see Sokari, 1069).
ANTOINE, J.C., (see Donawa, 1050).
AZCONA, J.I., (see Pestka, 577).
BADENHORST, K., (see Nortje, 411, 418).
BAILEY, J.S., media for recovery of *listeria*, 473; effect of media and sampling on recovery of *listeria*, 505.
BAKER, D.A., predicting safe storage of fresh fish, 131; prevalence of *clostridium botulinum* in seafood, 668.
BAKER, R.C., chlorine dioxide and poultry carcasses, 465.
BANDLER, R., (see Gecan, 511).
BANKS, J.G., (see Earnshaw, 170).
BARANOWSKI, J.D., decomposition and histamine in mahimahi, 217.
BARDEN, C.L., (see Beelman, 759).
BARNES, C.J., depletion of sulfamethazine in veal, 154.
BARTLEY, C.E., (see Beelman, 759).
BEAN, N.H., foodborne disease outbreaks 5 year summary, 711; foodborne disease outbreaks in the u.s., 804.
BEELMAN, R.B., acid blanching and edta treatment of canned mushrooms, 425; effect of calcium chloride on mushroom quality and shelf life, 759.
BEGLEY, T.H., plasticizer and oligomer migration into food, 1062.
BEKBOLET, M., light effects on foods, 430.
BENCIVENGO, M.M., (see Buchanan, 1002).
BENNETT, B., (see Okrend, 249).
BENNOUR, M., (see El Marrakchi, 600).
BERKOWITZ, D., (see Powers, 767).
BERNARD, D.T., (see Scott, 652).
BERRANG, M.E., (see Brackett, 391).
BERRY, E.D., (see Hutkins, 194).
BERRY, M.R., (see Pflug, 312).
BESTER, B.H., influence of lysozyme on selected bacteria, 306.
BEUCHAT, L.R., (see Brackett, 391); (see Heaton, 598); petrifilm method for yeasts and molds, 864; analyzing foods for the presence of xerophilic fungi, 984.
BHADURI, S., (see Zaika, 18).
BILGILLI, S.F., (see Moran, 205).
BISHOP, J.R., estimators of potential shelf-life of milk, 151; (see Pierson, 924).
BLASZKO, N., (see Frampton, 933).
BOKHARY, H.A., (see Shibl, 779).
BOLDERIJK, R., (see DeSmedt, 659).
BOLESZCZUK, P., (see Entis, 948).
BORSA, J., radiation sensitivity of *l. monocytogenes*, 648.
BOUCHRITI, N., (see El Marrakchi, 600).
BOYLE, D.L., *listeria* in slaughterhouses, 102.
BRACKETT, R.E., modified atmosphere packaging of peppers, 255; controlled atmosphere storage of fresh vegetables, 391; (see Beuchat, 864).
BRADSHAW, J.G., (see Wesley, 734); (see Peeler, 969); (see Shah, 1033).
BREENE, W.M., nutritional and medicinal value of mushrooms, 883.
BRICKEY, P.M., (see Gecan, 895).
BROOME, C.V., (see Wenger, 1015).
BROWN, J.M., (see Senyk, 158).
BRUST, P.A., (see Baranowski, 217).
BRYAN, F.L., haccp systems for retail food and restaurant operations, 978.
BUCHANAN, R.L, model for predicting growth of *listeria monocytogenes*, 370; virulence characteristics of *listeria*, 1002.
BULLERMAN, L.B., (see Harris, 176); interactive effects of spore load and temperature, 227; inhibition of mold and aflatoxin, 230; optimization of lipase synthesis, 481.
BYRNE, R.D., Jr., (see Bishop, 151).
CANN, D.D., (see Taylor, 953).
CARPENTER, J.A. resistance of *salmonella* from pork carcasses, 253.
CASSENS, R.G., (see Doyle, 81).
CHAI, T.J., microorganisms in soft-shell clams, 1052.
CHAIA, A.P., (see Oliver, 237).
CHAMPAGNE, C.P., enumeration of psychrotrophic bacteria, 241; inhibition of psychrotrophs, 400.
CHANG, G.W., *escherichia coli* in the ecor reference collection, 972.
CHARLTON, B.R., *listeria* in california milk plants, 198.
CHEN, B.H., cooking methods on yield of carotenoids, 1076.
CHONGSIRIWATANA, M., (see Baranowski, 217).
CHRISTEN, G.L., (see Davidson, 468).
CHUREY, J.J., (see Splittstoesser, 701).
CHICHOWICZ, S.M., (see Gecan, 895).
CLERET, J.J., (see Abgrall, 213).
CLIVER, D.O., (see Ronner, 944).
COCKEY, R.R., (see Chai, 1052).
COHEN, M.D., (see Wei, 489).
COLLINS, J.K., elimination of *e. coli* and coliphages from mussels, 208.
CONNER, D.E., (see Scott, 652).
COOKE, P.H., (see Buchanan, 1002).
COUSINS, D.L., conductance method for enterobacteriacea in milk, 568.
COX, N.A., (see Bailey, 473, 505).
CRAWFORD, R.G., (see Wesley, 734).
CUPPETT, S.L., isolation of lipolytic bacteria, 176; (see Bullerman, 481).
CURIALE, M.S., (see Matner, 145); comparison of rapid *salmonella* assays, 1037.
D'AOUST, J.Y., sensitivity of short selective enrichment for *salmonella*, 562; detection of *salmonella* by microplate elisa, 841.
DALEY, E., (see D'Aoust, 841).
DAVIDSON, J.H., (see Senyk, 158).
DAVIDSON, P.M., influence of bovine lacctogerrin on *listeria*, 468.
DAVIS, C.E., (see Townsend, 680).
DE BOER, E., cross-contamination from raw chicken, 1067.
DE MACIAS, M.E.N., (see Perdigon, 404).
DE SMEDT, J.M., motility enrichment for *salmonella* detection, 659.
DEFRISE, D., (see Earnshaw, 170).
DEL CORRAL, F., (see Zaika, 18); (see Smith, 141); (see Buchanan, 1002).
DEPASQUALE, D.A., (see Montville, 324).
DICKSON, J.S., transfer of *listeria* and *salmonella*, 51; sanitizing of beef tissue surfaces, 674.
DIGNAN, D.M., (see Pflug, 312).
DOBSON, J.W., (see Heaton, 598).
DOMENECH, A., (see Suarez, 386).
DONAWA, A.L., spoilage of uht-treated chocolate milk, 1050.
DONNELLY, C.W., incidence and antagonism of *listeria* in silage, 642; (see Wesley, 734).
DOORES, S., (see Kamau, 1010).
DOUGLASS, L.W., (see Guidry, 292); (see Kotula, 571).
DOWLEN, H.H., (see Oliver, 693).
DOYLE, M.P., *listeria* in meat products, 81.
DRAUGHON, F.A., infection of eggs with *yersinia*, 826.
DUFRENNE, J., (see Notermans, 1020).
DUTULESCU, D., (see Genigeorgis, 282).
EARNSHAW, R.G., inhibition of *s. typhimurium* and *e. coli* in infant formula, 170.
ECKNER, K.F., (see Zottola, 461).

SUBJECT INDEX

Acids
  Effect of organic acids on *Listeria*, 652
  injury of *Listeria monocytogenes*, 26
Aeromonas species
  growth in cooked crayfish, 665
  in aquatic environments in Brazil, 78
  incidence from U.S. West Coast, 849
Aflatoxins (see mycotoxins)
Alar
  determination in fresh fruit, 689
Alkaline phosphatase
  fluorometric analysis, 588
  thermal inactivation, AOAC-V method, 969
Ammonium bicarbonate
  inhibition of mold and yeasts, 324
Antibiotics
  rapid tests for residues in milk, 158
  residues in
    meat, review, 178
    milk, 693
  resistance of *Salmonella* from pork, 253
  sulfamethazine depletion in veal, 154
Apples
  shrink wrap packaging, 598
Bacillus cereus
  extracellular protein profile, 608
  toxin production by psychrotrophic strains, 790
Bacillus licheniformis
  fermentation of corn meal, 245
  production of niacin in corn meal, 881
Bacteria
  contamination of broiler carcasses, 202
  enumeration of psychrotrophic in raw milk, 241
  growth in foodservice cold serving units, 336
  influence of lysozyme on, in Gouda cheese, 306
  inhibition by hypophosphite, 56
  isolation of lipolytic, 176
  lipase synthesis by *Pseudomonas*, 481
  psychrotrophic inhibition in milk, 400
  source of proteases in fish, review, 341
Bacteriocins
  inhibition of *Listeria* in fermented sausages, 194
  use of conductance to detect, 772
Bacteriological Methods
  abbreviated method for *Listeria*, 502
  isolation of *E. coli* 0157:H7 from ground beef, 941
  comparison of
    methods for *E. coli* in ground meats, 933
    standard methods, Petrifilm and Redigel, 423

OD and direct mic. counts of *Staphylococcus*, 292
conductance method for Enterobacteriaceae in milk, 568
detection of
Listeria in chicken, 606
Salmonella by rapid method, 1037
Yersinia in slaughter pigs and pork, 1047
differential enumeration of microrganisms in yogurt, 64
efficacy of
enrichment media for heat injured *Listeria*, 473
Petrifilm for *E. coli* and coliforms, 145
ELISA technique for *Salmonella*, 841
enumeration of
E. coli from ground beef, 508
psychrotrophic bacteria in raw milk, 241
Vibrio species in oysters, 300
glucuronidase negative *E. coli*, 972
hydrophobic grid membrane filter technique for *E. coli*, 948
isolation of lypolytic bacteria, 176
Limulus amoebocyte lysate assay
for milk, 151
Salmonella in egg, 1033
modified 1-2 Test system for *Salmonella*, 656
motility enrichment for *Salmonella* detection, 659
petrifilm for
aerobic flora of fresh fish, 213
E. coli 0157:H7 from meat, 936
enumerating yeasts and molds, 864
pre-enrichment for *Listeria* in chicken, 555
rapid identification of *Salmonella*, 961
sampling protocol and media for *Listeria*, 505
screening method for *E. coli* 0157:H7, 249
selective
enrichment broths and agar for *Listeria*, 105
media for heat injured *Shigella flexneri*, 141
plating media for *Listeria*, 382
short enrichment for *Salmonella*, 562
Barley
fungal flora in Saudi Arabia, 786
Beef (see meat products)
Borrelia burgdorferi
thermal inactivation, 296
Botulism (also see *C. botulinum*)
risk of refrigerated processed foods, 1020
Bread
oxygen scavenger to prevent mold growth, 767
Campylobacter
cross contamination from raw chicken, 1067
on poultry and red meat in Poland, 127
Canned greens
microanalytical quality, 511
Casein
neutralization of cocoa inhibition of *Listeria*, 38
Cheese
from heat treated milk, safety of, 441, 519, 610
influence of lysozyme on bacteria in Gouda, 306
Salmonella javiana in Mozzarella, 461
Cholesterol
dissimilation by *Rhodococcus equi*, 332
Clostridium botulinum
antibotulinal properties of nisin in fresh fish, 953
control in canned mushrooms, 425
growth in shredded cabbage, 831
in fresh retail fish, 668
inhibition
in Japanese noodle soup, 1025
by origanun oil and nitrite, 958
by spice oils, 755
risk in refrigerated processed foods, 1020
toxigenesis, fresh fish, modified atmospheres, 131
Clostridium perfringens
incidence in fresh sausage in Argentina, 173
Cocoa
detection of *Salmonella*, 659
inhibition of *Listeria*, 38
Computer model
for growth of *Listeria*, 370
Controlled atmosphere (see modified atmospheres)
Corn
nutritional improvement of by fermentation, 245
production of niacin in by microorganisms, 881
Daminozide
determination in fresh fruits, 689
Detoxification of aflatoxins
in dried figs, 581
a review, 489
Eggs
growth of *Salmonella enteriditis* in, 1033
infection with *Yersinia*, 826
Listeria
heat resistance in, 9
inactivation in, 6
viability in, 15
Salmonella
eradication in egg powder by irradiation, 111
ELISA, detection of
Listeria in chicken, 606
Salmonella, 841
staphylococcal enterotoxin B, 834
whey proteins, 484
zearalenone in milk, 577
Enterobacter cloacae
fermentation of corn meal, 245
Enterotoxin
antibodies for staphylococcal, 782
detection of staphylococcal B by ELISA, 834
producing *Staphylococcus* in meat in Nigeria, 1069
production by Yersinia from milk, 751
production in homemade mayonnaise, 386
Erysipelothrix rhusiopathiae
in retail raw pork, 856
Escherichia coli
aid to isolation of 0157:H7 from ground beef, 941
and aerobic count in blue crab, 423
coliphage specific for 0157:H7, 944
comparison of methods for in ground meats, 933
destruction in restructured beef roasts, 396
efficacy of Petrifilm *E. coli* count plates, 145
elimination from mussels during depuration, 208
enumeration from ground beef, 508
from fermented milk in Nigeria, 574
glucuronidase-negative strains, 972
hydrophobic grid membrane filter, 948
incidence in Iraqi milk products, 846
inhibition by lactoperoxidase system, 170
studies of soft-shell clams, 1052
Petrifilm for 0157:H7 from meat, 936
screening method for 0157:H7, 249
verotoxin-producing, foodborne, 258
Ethyl carbamate
determination in fermented foods, 1058
Figs
degradation of aflatoxins, 581
Fish
antibotulinal properties of nisin in, 953
C. botulinum
in fresh retail fish, 668
toxigenesis in modified atmosphere, 131
deterioration of Moroccan Sardines in ice, 600
extracellular proteases of bacteria, 341
histamine in mahimahi, 217
Petrifilm, enumeration of aerobic flora, 213
Foodborne disease
verotoxin-producing *E. coli*, review, 259
outbreaks, five year summary, 711
outbreaks, pathogens, vehicles, trends, 804
cheese from heat treated milk, 441, 519, 610
Food service
certification of managers, 269
effectiveness of cold serving units, 336
HACCP systems for, 978
Fresh vegetables
aspagagus, modified atmosphere, 391
bell peppers modified atmosphere, 255
broccoli, modified atmosphere, 391
cauliflower, modified atmosphere, 391
cabbage, shredded, growth of *C. botulinum*, 831
cabbage, survival of *Shigella sonnei*, 558
effect of processing on microflora, 701
Glass contamination of food
analytical techniques, 895
Grapefruit
irradiation and fruit fly mortality, 329
microbial ecology of commercial sections, 685
HACCP

for retail food and restaurant operations, 978
in production of meat and poultry products, 795
Hawaiian ethnic foods
moisture content and A_w, 72
Heat process (also see Thermal Processing)
for aseptically packaged low acid food, 312
Histamine
in Mahimahi, 217
Hydrophobic Grid Membrane Filter System
enumeration of microorganisms in yogurt, 64
Hypophosphite
inhibition of bacteria, 56
review, 513
IAMFES/Journal of Food Protection
annual meeting
abstract form, 866, 868
abstracts of papers, 900
program, 351
developing scientist award, 821, 913, 997
instructions for authors, 92
membership application form, 96, 366, 549, 915, 998
report of the Editor for 1989-90, 990
Irradiation
control of mold rots, sweet potatoes, 223
eradication of *Salmonella*, egg powder, 111
increased storage life, chilled scallops, 763
Mexican fruit fly mortality, 329
sensitivity of *Listeria*, 648
Lactic Acid Bacteria
anagonism to *Listeria*, 642
anticarcinogenic and immunologic properites, 704
enumeration
by hydrophobic grid membrane filter, 64
of psychrotrophs in presence of, 241
growth temperatures of ropy slime producers, 793
increased intestinal immunity to pathogens, 404
inhibition of
Listeria by, 194, 918
mold growth and aflatoxin, 230
psychrotrophs in raw milk, 400
peptide hydrolase
of *Leuconostoc*, 165
of *Propionibacterium*, 237
spoilage of cooked ring sausages, 965
Lactobacillus acidophilus
inhibition of mold and aflatoxin, 230
Lactobacillus bulgaricus
differential enumeration in yogurt, 64
inhibition of mold and aflatoxin, 230
Lactobacillus delbrueckii
bacteriocin, 772
Lactobacillus plantarum
inhibition of mold and aflatoxin, 230
Lactococcus lactis
lactose-nonfermenting variants, 583
Lactose
intolerance, oligosaccharide formation, 262
nonfermenting variants of *Lactococcus lactis*, 583
Lactoferrin
inhibition of *Listeria*, 469
Lactoperoxidase system
activity against *Listeria* and *Staphylococcus*,
for preservation of milk in Kenya, 592
inhibition of *Salmonella* and *E. coli*, 170
Letters to the Editor, 992, 993
Light
effect on food, 430
Lipase
synthesis by *Pseudomonas*, 481
technique for isolation of lipolytic bacteria, 176
Listeria monoctytogenes
abbreviated method for recovery, 502
acid injury of, 26
attachment to contact surfaces, 742
association with staphylococci in dairy plants, 928
comparison of food and clinical isolates, 1003
computer model for growth of, 370
contamination of turkey franks, 1015
destruction during frankfurter processing, 18
effect of
caffine and theobromine, 47
media and sampling on recovery, 505
enrichment media for heat injured, 473
in sweetened condensed and evaporated milk, 747
growth in
chocolate milk, 30
cooked chicken loaf, 289
presence of organic acids, 652
slaughter house wastes, 102
vacuum-packaged beef, 739
heat resistance in liquid whole egg, 19
high-temperature short-time inactivation, 734
in California milk plants, 198
in meat and meat products, a review, 81
in precooked chilled chicken, 606
in silage in Vermont, 642
increase in heat resistance, 924
inhibition by
bacteriocins, 194
cocoa, 38
lactoferrin, 469
lactoperoxidase, 1010
S. lactis, 918
predictive model for growth, 370
prevalence in turkey meat, 282
radiation sensitivity, 648
recovery from
chicken, 555
shrimp, 22
resistance
to drying, 377
sanitizers, 550
sanitizing beef tissue surfaces, 674
selective broths and agars for, 105
selective plating media for, 382
thermal inactivation in
liquid whole egg, 6
crab meat, 878
transfer between beef tissue surfaces, 51
viability in avian egg, 15
Lyme disease
thermal inactivation, 296
Mayonnaise
home made, growth of *S. aureus*, 386
Meat Products
antibiotic residues in, 178
beef
aid to isolation of *E. coli* 0157:H7, 941
E. coli destruction in, 396
enumeration of *E. coli*, 508
Listeria transfer between tissue surfaces, 51
method for *E. coli* 0157:H7, 249
Salmonella, transfer between tissue surfaces, 51
sanitizing tissue surfaces, 674
vacuum-packaged, growth of *Listeria*, 739
Campylobacter, in Poland, 127
coliphage for *E. coli* 0157:H7, 944
methods for *E. coli* in ground meat, 933
C. perfringens in sausage in Argentina, 173
estimating maximum internal temperature, 680
lactic acid bacterial spoilage of cooked sausage, 965
Listeria, growth in slaughter house wastes, 102
Listeria in, a review, 81
Listeria inhibition in fermented sausage, 194
microbial profile of meats in South Africa, 411, 418
Petrifilm for *E. coli* 0157:H7 from meat, 936
Pork
antibiotic resistant *Salmonella* in, 253
destruction of *Trichinella spiralis* by freezing, 571
detection of *Yersinia*, 1047
inhibition of *C. botulinum* by origanum oil and nitrite, 958
occurrence of *Erysipelothrix rhusiopathiae*, 856
rapid identification of *Salmonella*, 961
Staphylococcus in meat in Nigeria, 1069
sulfamethazine depletion in veal, 154
use of HACCP in production, review, 795
Milk
aflatoxin M_1 recovery by affinity column, 75
antibiotic residues in, 693
antibiotic resistant *E. coli* in Iraq, 846
association of *Listeria* and staphylococci, 928
coliphage for *E. coli* 0157:H7, 944
conductance method for Enterobacteriaceae, 75
effect of composition on somatic counts, 67
ELISA technique for zearalenone, 577
enumeration of psychrotrophic bacteria, 241
fate of *Listeria* in condensed milks, 747

fluorometric analysis of alkaline phosphatase, 588
growth of
Listeria in chocolate, 747
V. choerae in reconstituted infant milk, 1071
heat treated, safety of cheese made from, 441, 519, 610
immunological evaluation of deaerated human, 975
inhibition of
Listeria by methylxanthines in chocolate, 47
Salmonella and *E. coli* by lactoperoxidase, 170
psychrotrophs by lactic acid bacteria, 400
lactoperoxidase
activity against *Listeria* and *Staphylococcus*, 1010
treatment in Kenya, 592
Limulus amoebocyte lysate assay of shelf life, 151
Listeria in California processing plants, 198
Nigeria, *E. coli* from fermented milk, 574
spoilage of UHT-treated chocolate milk,
rapid test for antibiotic residues, 158
reduction of mutagenic potential from aflatoxin, 777
thermal inactivation of phosphatase, AOAC-V method, 969
toxin production by psychrotrophic *Bacillus*, 790
warm vs cold sampling for somatic cell count, 1073
Yersinia, enterotoxin production, 751
Moisture content
of selected foods of commerce in Hawaii, 72
Modified atmosphere
antibotulinal effect of nisin in fish in CO_2, 953
C. botulinum toxigenesis in fresh fish, 131
growth of
Aeromonas and *Plesiomonas* in cooked crayfish, 665
C. botulinum in shredded cabbage, 831
Listeria and *Pseudomonas* in cooked chicken, 289
Listeria in vacuum-packaged beef, 739
Salmonella and *Pseudomonas* in cooked crabmeat, 566
influence on microflora of
fresh bell peppers, 255
asparagus, broccoli, cauliflower, 391
Molds
beta-nitropropionic acid production by *A. oryzae*, 321
considerations for detecting xerophilic fungi, 984
control of rots by irradiation of sweet potatoes, 223
flora of barley in Saudi Arabia, 786
inhibition by
ammonium bicarbonate, 324
Lactobacillus species, 230
by naturally occurring compounds, 428
Petrifilm for enumeration, 864
spore load, effect on aflatoxin production, 227
stimulation of growth by oregano and thyme, 697
use of oxygen scavengers to prevent growth, 767
Mushrooms
acid blanch to control *C. botulinum*, 425
effect of calcium chloride on shelf life, 759
specialty, nutritional and medicinal value, 883
spoilage microflora of truffles, 779
Mycotoxins
aflatoxin
affinity column cleanup of M_1, 75
degradation by sodium bisulfite in figs, 581
detoxification methods, review, 489
effect of spore load and temperature on production, 227
inhibition by *Lactobacillus* species, 230
inhibition by oregano and thyme, 697
reduction of mutagenic potential in milk, 777
beta-nitropropionic acid production by *A. oryzae*, 321
ELISA technique for zearalenone in milk, 577
Oligosaccharides
from enzymatic hydrolysis of lactose, 262
Packaging
shrink wrap for apples, 598
Peppers
influence of modified atmosphere on microflora, 255
Peptide hydrolases
of *Leuconostoc*, 165
of *Propionibacterium*, 237
Petrifilm
comparison to standard methods and Redigel, 423
detection of *E. coli* 0157:H7 from meat, 936
efficacy of *E. coli* count plates, 145
enumeration of aerobic flora of fish, 213
enumeration of yeasts and molds, 864
Phosphatase
fluorometric analysis of, 588
thermal inactivation by AOAC-V method, 969
Plastic food wrap
migration of plasticizers into microwaved food, 1062
Plesiomonas shigelloides
growth in cooked crayfish, 665
Pork (see meat products)
Poultry
Campylobacter in Poland, 127
chlorine dioxide control of Salmonella, 465
cross contamination with *Campylobacter* and *Salmonella*, 1067
growth of *Listeria* and *Pseudomonas* in cooked chicken, 289
impact of processing on contamination of broilers, 202
incidence of *Listeria* in pre-cooked chilled chicken, 606
influence of feeding and fasting on *Salmonella* in broilers, 205
Listeria contamination of turkey franks, 1015
prevalence of *Listeria* in turkey meat, 282
rapid identification of *Salmonella*, 961
recovery of *Listeria* from chicken, 555
use of HACCP in processing, 795
Pseudomonas fluorescens
lipase synthesis, 481
Pseudomonas fragi
extracellular vesicles, 859
growth in cooked crabmeat, 566
Rhodococcus equi
cholesterol dissimulation, 332
Salmonella
antibiotic resistance in pork, 253
chlorine dioxide control in poultry, 465
cross-contamination from raw chicken,
detection by rapid methods, 1037
eradication in egg powder by irradiation, 111
ELISA technique for detection, 841
growth in cooked crabmeat, 566
impact of processing on contamination of broilers, 202
inhibition in milk by lactoperoxidase, 170
influence of feeding and fasting on incidence in broilers, 205
lactic acid bacteria, increased intestinal immunity, 404
modified 1-2 test system, 656
motility enrichment for detection in cocoa, 659
rapid identification in foods and feeds, 961
sanitizing beef tissue surfaces, 674
S. enteriditis growth in eggs, 1033
short selective enrichment, 562
S. javiana in Mozzarella-type cheese, 461
transfer between beef tissue surfaces, 51
Sanitizers
resistance of *Listeria* microcolonies, 550
Sardines
storage in ice, 600
Slaughter house wastes
Listeria growth in, 102
Somatic cell count
effect of milk composition on, 67
warm vs. cold sampling for, 1073
Seafood, shellfish
aerobic plate count and *E. coli* in blue crab, 423
elimination of *E. coli* from mussels, 208
enumeration of *Vibrio* species in oysters, 300
growth of
Aeromonas in cooked crayfish, 665
Plesionnonas in cooked crayfish, 665
Pseudomonas in cooked crabmeat, 566
Salmonella in cooked crabmeat, 566
methods for determining sulfite in prawns, 875
microbiological studies of soft-shell clams, 1052
motile *Aeromonas* from U.S. West Coast growing areas, 849
prevalence of *C. botulinum* in fresh seafood, 668
recovery of heat-stressed *Listeria* from shrimp, 22
storage life of irradiated chilled scallops, 763
thermal death times for *Listeria* in crab meat, 878
Shigella flexneri
detection of heat injured cells by selective media, 141
Shigella sonnei
survival in shredded cabbage, 558
Spices, spice oils
inhibition of aflatoxin production, 697
inhibition of *C. botulinum*, 755
inhibition of *C. botulinum* by origanum and nitrite, 958
stimulation of mold growth, 697

Staphylococcus
association with *Listeria* in dairy plants, 928
differences in OD and direct microscopic counts, 292
ELISA detection of enterotoxin B, 834
enterotoxin producing strains in meat in Nigeria, 1069
growth in homemade mayonnasie, 386
lactoperoxidase activity against, 1010
of human and bovine origin, 119
production of antibodies to enterotoxins A and B, 782
Starter cultures
enumeration of in yogurt, 64
Streptococcus lactis
inhibition of *Listeria monocytogenes*, 918
Streptococcus thermophilus
differential enumeration in yogurt, 64
Sulfites
determination in prawns, 875
Sulfonamides
depletion in veal, 154
residues in meat, review, 178
Thermal Processing
acid blanching to control *C. botulinum*, 425
destruction of *E. coli* in restructured beef roasts, 396
estimating maximum internal temperature of meats, 680
heat resistance of *Listeria*, 1010
increase in, 924
in frankfurters, 18
in whole liquid egg, 9
of surface adherent microcolonies, 550
pasteurization inactivation of, 734
process for aseptically packaged low acid food, 312
recovery of heat injured *Shigella flexneri*, 141
recovery of heat stressed *Listeria*, 22
safety of cheese from heat-treated milk, 441, 519, 610
spoilage of UHT-treated chocolate milk, 1050
thermal death times of
Borrela burgdorferi, lyme disease, 296
Listeria monocytogenes in whole egg, 6
Listeria monocytogenes in crab meat, 878
Trichinella spiralis
destruction by freezing, 571
Truffles
spoilage microflora, 779
Vegetables
acid blanch of mushrooms, 425
asparagus, modified atmosphere, 391
bell peppers, modified atmosphere, 255
broccoli, modified atmosphere, 391
cabbage, survival of *Shigella sonnei*, 558
canned greens, microanalytical quality, 511
cauliflower, modified atmosphere, 391
effect of cooking method on carotenoids, 1076
effect of processing on microflora, 701
growth of *C. botulinum* in shredded cabbage, 831
increased shelf life of mushrooms, 759
nutritional and medicinal value of mushrooms, 883
spoilage microflora of truffles, 779
Vibrio species
enumeration in oysters, 300
survival and growth in reconstituted infant milk, 1071
Water activity
of selected foods of commerce in Hawaii, 72
Whey proteins
detection of ELISA, 484
Yeasts
considerations for detection of osmophilic, 984
inhibition by ammonium bicarbonate, 324
Petrifilm for enumeration, 864
Yersinia species
detection in slaughter pigs and pork, 1047
infection of shell eggs, 826
isolation from milk, enterotoxin 751
Yogurt
differential enumeration of microorganisms in, 64
microflora of Austrian natural-set, 478
